

Logan Ambulance Service

Mission Statement

The Logan Ambulance Service is dedicated to serving our community by providing efficient and effective emergency medical care and transport with compassion and dignity. We do this using highly trained, competent volunteers that take pride being part of our community.

We have provided service for 37 years and maintain 3 fully equipped ambulances that are housed in our centrally located EMS Station. We are staffed with 14 volunteers that range from EMT-First Responders to Paramedics. We maintain a 24-hour vigilance to ensure that every call for emergency assistance is answered in a timely manner with great professionalism.

We are led into service by

Service Director: Justin LeBlanc

Medical Director: Dr. Justin Hazen
